Fields example

DeeperDive Publisher Config Tool

Publishers

Create New Publisher

Search publishers...

- Aurora Media
- Borealis News
- Cascade Daily
- Summit Insights
- Test Publisher

- Pages

Type	Selector	Position	
homepage	main	top	Remove
text	.article-main	bottom	Remove
category	#category-feed	sidebar	Remove

Add Page

User can add and remove pages.

- Dashboards

Publisher Dashboard:

https://mixpanel.com/project/404/dashboards/8004

Monitor Dashboard:

https://grafana.example.com/d/summ1t04/publisher-summit-overview

QA Status Dashboard:

https://internal.taboola.com/qa/summit/status

The fields have a validation of content.

For example: user can't put url without https://

- Custom CSS

```
/* emphasize opinion header */
.opinion-lead { border-bottom: 3px solid #ff7a00; }
```

- Tags

tech, finance

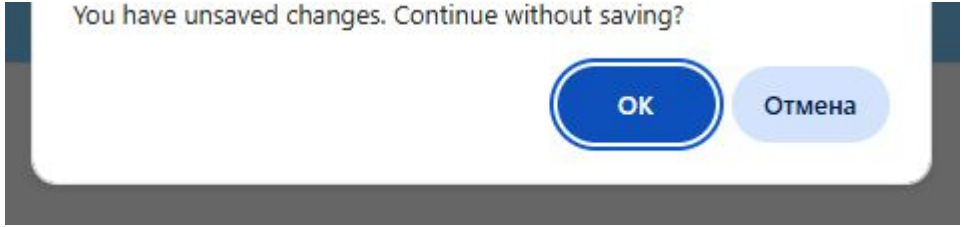
lastUpdated: "2025-10-20T12:00:00Z" (removed)
notes: "Running A/B on homepage position"
customCss: "/* emphasize opinion header */\n.opinion-lead { border-bottom: 3px solid #ff7a00; }"
```

Saving data



If the user tries to close the tab, or clicks the CANCEL button, another publisher, the CREATE button, or the HOME button, a browser system message will appear. This prevents exiting without saving and losing data.

THANK YOU
for your attention!

with regards
Alex Manis
